**Adoption Application**

Name: \_\_\_\_\_ Date: \_\_\_\_\_

**Considerations**

**Before you begin completing this form, please note that any incomplete application, including failure to submit requested photos, will not be considered.**

Before you submit your application, have you thoroughly thought about the expense of owning a horse ? Below are some cost examples associated with horse ownership. We have found that a typical 1,000 lb. equine costs about \$4,000 minimum per year to own.

- \$250 - \$300 monthly: Grain and hay with additional costs for full or part boarding
- \$70 — \$100: Hooves shod every 6 weeks.
- \$4 - \$12: Wormer every 6 weeks
- \$300+: Annual vet visits, vaccinations, Cogging test
- \$125+: Annual teeth floating
  - At least 1 - 2 hours each day to feed, clean stalls/pasture, and grooming if you are part boarding or keeping the horse on your own property
- Miscellaneous expenses such as tack, grooming items, and fly spray
- Funds for any emergency such as colic hospitalization or tendon / ligaments injuries ranging from \$1,000 — \$3,000+

If the horse becomes ill and requires medical attention, this can range from a simple vet call and exam for \$100 or could be in the thousands such as colic surgery.

Our goal is to adopt each horse into a forever home where its emotional, social, and medical needs will be met and where it will be happy, safe, and loved for the rest of its life.

What will you do with your adopted horse should the horse become unsound or unfit for riding ?

---

---

If you do not intend on keeping the horse for its lifetime, even if it becomes unsound for riding, please do not fill out the application. Our goal is to find good, forever homes for the horse.

## Application Information

I understand that this is only an application and implies no guarantee of approval to adopt. South Florida S.P.C.A (SFSPCA) reserves the right to deny any application.

I understand that an adopting party enters into a contractual agreement with SFSPCA to provide a home for the equine for as long as SFSPCA feels that the adoption is in the best interest of the equine. I further understand that adopted equines may not be sold, traded, given away, place in another person's care, or removed from Florida without SFSPCA's expressed written consent.

I understand that if I am no longer able to care for the adopted equine, the equine must be returned to SFSPCA at no cost or recourse to SFSPCA.

Please be advised that a tax-deductible donation will be requested for each adopted equine based on several factors including type of animal, condition, age, care requirements, rideable/ unrideable, level trained, etc.

*An SFSPCA Director can advise as to the donation being requested for each available equine. The donation range for most adopted equines is \$500.00 to \$700.00; exceptions can be lower or higher.*

In specific cases, other charges and/or conditions may apply to the adoption agreement.

The signed adoption agreement and donation must be received in order for this agreement to be finalized and the ownership of the equine transferred to the adopting party.

## **RESCUED HEARTS**

**Taking care of rescue horses is something I do best, I know because I've done it  
and I've surely passed the test.**

**The horses that I've brushed and fed, the cleaning I have done, all to watch a  
frightened soul stand dreaming in the sun.**

**My own horses I've neglected but I tell them every day, that I love and cherish  
them, through a new horse has come to stay.**

**I know they understand this for in their eyes I see, the love that I have given them  
come shinning back to me.**

**Some people think I'm crazy, some others think I'm great, but very few can  
understand what really is at stake.**

**If I can love and help a horse to find a better way, my life is much more richer that  
I look forward to each day.**

**So now you know my secret, it is there for all to see.**

**The love I give, the life I save, I do it all for me !**
